TM

In the western spiral arm of the Milky Way Galaxy, a space station for Refreshment and rejuvenation hangs in a galactic layby,between MARS and JUPITER .

ROMULUS looks like a ring doughnut with caster sugar and jam and contains a happy eater, a petrol station and a training centre for an elite corps of spaceman dedicated to keeping the highways and byways of the Galaxy In tip top condition.

At the conference centre, Admiral Brockwell is chairing the last induction of INTREPID TM flagship of the Galactic Federation.

STEVE STRAKER walks out of a virtual reality suite and accepts a hot towel from JASMINE, chief steward of ROMULUS TM .

JASMINE HOW WHERE THE GEISHA GIRLS

ed STRAKER There kamono's smelt of lavender .

JASMINE Seem me latter, You'd better get going or you'll miss the induction .

RIVERS escorts LOGAN and ROSS to JASMINE chief steward of the INTREPID TM .

CAPTAIN RIVERS The weight of a full gymnasium means we cannot keep young and beautiful without JASMINE here.

LOGAN In olden days a ship relied on one female .

They walk down a charcoal gray tiled carpet directed by a chart on soft resin paneling to the galley of the ship where Jasmine has her apartment .Using INTERCOM TM to get into her apartment, where a slim middle aged woman dressed in navy blue boiler suit taken in at the waist with a sleeves rolled up , is waiting.

JASMINE Fortunately on this ship what you do for your sexual relief is your business and it's also encourage by me, and COMMANDER CORBETT .

MIKE RIVERS And the rest of the officers .

ROSS That's fine, but I'm more sports casual.

MIKE RIVERS Well you're in luck because of the lack of exercise machines .

JASMINE Cos they're very heavy.

MIKE RIVERS What Jasmine is trying to say is

that if we built a gymnasium, the weight allowance would mean the momentum of the ship would stop us from decelerating in time, not only in a combat situation, but also at high speed manoeuvres.

LOGAN We can't even exercise.

JASMINE Unfortunately, there's more bad news.Due to our closed environment oxygen is at a premium .

ROSS So we cannot do vigorous exercise .

MIKE RIVERS JASMINE here has found a solution.

JASMINE My DUMBELLS really work and really keep us fit.

MIKE RIVERS She is in charge of JASMINE'S DUMBELLS TM .

JASMINE I can also give medication and cosmetics and all other essential items to maintain ,including. Soap and moisturizers.

MIKE RIVERS I'll leave you in her capable hands and be ready for the launch, which will be as soon as we've had our final mission briefing from Admiral Brockwell.

Elseware STEVE STRAKER walks through the central gantry along a charcoal grey tiled carpet and presses on a Resin panelled INTERCOM TM to enter the briefing room .

After a pregnant pause the door opens and commander corbett ushers him in .

COMMANDER CORBETT Late again Straker .

He sits himself down next to YOMAN RAND, a power suit ed slender girl with Japanese lullaby pink hair [here is you DOSIER ENSIGN] Science Officer Brunson push es a small android 200 viewing slab over the oblong glass table . He enters his access code.

CORBETT is wearing green boots, green leggings ,and a green tunic .

ADMIRAL BROCKWELL So your new ship is the most advanc e in the fleet. Welcome EXECUTIVE TOWNSEND here who has been secon ded to SPACE PATROL from VOLTAR CONFEDERACY . TM

EXECUTIVE TOWNSEND Yes I'll see you , come to my quarters latter on darling,[she points at her cheek bone]
CAPTAIN RIVERS Goldilocks and the three bears are once more under threat back on KALDOR TM .
EXECUTIVE TOWNSEND A nd for this reason GLOBAL are downsizing there space operations and returning to earth. Many of there mining planets have been taken over by VOLTAR, and we ne ed SPACE PATROL to help us with the transition.
COMMANDER CORBETT We set sail in two hours and I expect all my staff to be ready. So your first task shall be to go directly to your work station and start the training programs .
ADMIRAL BROCKWELL Meeting adjourn ed I'll show you onto your new refitt ed space patrol ship and with you our blessings.
THEY LEAVER THE BR IEF ING ROOM AND WALK ALONG THE MAIN GANTRY TOW A RDS THE AIRLOCK.

ADMIRAL BROCKWELL First chief you make your way to the engine room and start the WHARF 359 REACTOR TM ..

COMMANDER CORBETT I'll do the opening ceremony and put the lights on and you all follow me in,

He catches his NCO by the arm [you can tell me about the geisha girls]

ADMIRAL BROCKWELL As you've seen from the observation window the exoskeleton dry dock was erect ed for the final fitting of sensor arrays and viewing screens.
COMMANDER CORBETT She should have a navy blue ribbon around her , but I do declare, and in name this ship INTREPID 2, may fortune favour the foolish. How do you open this door .
The airlock door opens revelling a dark passageway beyond.
COMMANDER CORBETT Pass me that flash light VANUA . Chief to the engine room and everyone to your work stations, we set sail in one hour. They bridge crew head along the charcoal gray tiled carpet and follow signs on soft resin paneled walls to the flight deck .
YOMAN RAND I'll go to the ships galley and bring some refreshments straight up before we leave.
TAMAGOTCHI H as she chang ed her hair style
COMMANDER CORBETT Probably now how do you open these doors.
STEVE STRAKER Well you get a knife and put it to your wrists like this .
The door of the flight deck opens the crew get to their workstations around the perimeter of the hexagonal flight deck and commander CORBETT and MIKE RIVERS, and executive TOWNSEND walk through the hexagonal guardrail and take their command seats
COMMANDER CORBETT Steady as she goes till we clear dry dock ahead one quarter impulse power
Vanua pulls a bunch of flowers from tunic as Yeoman Rand steps onto the bridge saying:-
[WHEN A MAN YOU'VE NEVER MET BEFORE SUDDENLY GIVES YOU FLOWERS, THAT'S IMPULSE]

As the INTREPID TM reaches the 5 th planet of JUPITER the WORF 359 engines have started and they set sail .As the INTREPID TM passes the gass giant of JUPITER , the crew have a meal of Scots porridge oats and hot dogs served by Yeoman rands and Jasmine .
CORBETT They say the sea is cold but it has the warmest blood of all .
TOWNSEND Wales weap night DH Lawrence .
MIKE RIVERS Makes a change from JOHN MASFIELD .

The INTREPID TM enters hyperspace as Vanya opens a 2 LITRE bottle of BUCKS FIZZ TM .
YOMAN RAND takes her break and knocks on the door of the ships new liaison officer.
EXECUATIVE TOMPSON Ya Yoman these epoxy pack are fine, you gust rub them all over and they last all day, and then when you get back to your cabin you can simply peel them off.
YOMAN RAND saves me from asking the COMMANDER if I can use his bath Helen, I'll leave you to get settled in and see you in the mess room later on, I've got to wait tables , and I'm off at 1700, ok.
EXECUATIVE TOMPSON So here is your DROTHGO PK and I'll see you in the ships galley
YOMAN RAND .Fine Sally I'll come in for a java and a natter. First I have a date on the bridge as we reach the planet GOLGAFRIGEN.
STEPHANY TOMPSON I have a briefing with COMMANDER CORBETT , see you later.
After TOWNSEND has finis hed stowing her belongings for the voyage she leaves her quarters and walks down the main gantry to the flight deck. She walks in and seats herself next to COMMANDER CORBETT and CAPTAIN RIVERS.
COMMANDER CORBETT Glad you could join us TOWNSEND , with the GOLDILOCKS SCANDAL and

ADMIRAL BROCKWELL The AMAZONS have storm ed central office on Greysons planet and taken over. They are enslaving the male population for hard labour.
ON GRASONS PLANET.....
ED WINA IS SPEAKING TO THE ENTIRE WORLD FROM TORY CENTRAL
No longer will we have men wandering from pub to pub etc, demanding satisfaction . The days of male bondage are gone and we strike out for fre ed om.
Each girl will have a VIRTUAL REALITY STIMULATOR from MAGRETHIA, planet of the male Gigalos .
ADMIRAL Your mission is to rescue the men reinstall authority and restore our supply of vital ZITON 7 TM for our warp engines .
TOWNSEND Just like Arcadia Grayson's planet has been under the jurisdiction of the Voltaire confederacy since the galactic Federation was in short trousers .
ADMIRAL there's a chance to royal family is being kept captured on Grayson's planet .
CORBETT monitor tell all departments to

come up with an action plan by the time we come out of hyperspace .
The synthesized ambidextrous voice of monitor from speakers mounted above the doors says
I will advise the sociology-science and tactical Wing to analyze and come up with an action plan.
TOWNSEND With French Fries in a fizzy drink .
MIKE RIVERS And I'll advise my troops to be ready to implement it .
Flying out of hyperjump the galactic federation flagship INTREPID TM sails towards to GRAYSON' S PLANET TM .
ISLA-ST-CLEAR TM SHUT-THAT-DOOR TM .
COMMANDER CORBETT Put the broadcast on main speakers Mr RIVERS
EDWINA Any attempt to land or take over our new female dictatorship will be resist ed with loss of consummation rights for all GALACTIC FEDERATION old men.
In public bars sales of ear protectors are sold out as men scurry to evade to feminist torrent.

CORBETT Christ turn that bitch off, she's putting me off my toast ed crumpets and tea. Science officer ,start scanning the planet as we reach geostationary orbit . Launch the shuttle craft and prepare to penetrate the atmosphere.
CAPITAN RIVERS Do you think that's wise Sir.
CORBETT It's not wise to cross a menstruating female , but it's my duty.
SCIENCE OFFICER BRUNSTON My scans show all the men are working in the mine areas and the breweries have gone over to Alco pops commander.
CORBETT . What do we know about ed WINA.
CAPITAN RIVERS She had seven

husbands all di ed prematurely of consumption. She is known throughout the Galaxy as SPIDERWOMAN.
CORBETT punches his command chair .
CORBETT Chief I ne ed one of your cabin boys for a saucy rendezvous with an enemy leader.
CHIEF All my boys are washing up after the curry this lunch time.
CORBETT Then get me STEVE STR AKER, it's a job for him .
SCIENCE OFFICER BRUNST A N Not STEVE STRAKER our randy helmsman .
RIVERS It's a cunnilingus plan your short commander, but ED WINA looks adamant .
Corbett swivels in his chair.
CORBETT Are all the women on her side BRUNSTON.
SCIENCE OFFICER BRUNST A N All I can scan have stopp ed pandering to us in recreation grounds, and restaurants .
Corbett swivels in his chair
She does look frightening when her blood is up doesn't she crew.
All subordinates on the bridge stop playing TETRIS TM , WORMS TM ,AND SPACE INVADERS TM and nod in agreement.
The doors to the escalators open and STEVE STRAKER enters in his COMMIS CHEF WHITES.
Corbett swivels in his chair .
CORBETT There you are STRAKER , I'm prepar ed to forgive you bunking off duty for that virtual tour of a geisha house program we pick ed up on STARBASE 12 TM and let you back on officers duty.
RIVERS Yes really Streaker you jump ed the queue for the VR suit and I had a mutiny nearly as serious as down there on that planet.
CORBETT Y our mission is to fly down to GRAYSONS PLANET and get close to this QUEEN EDWINA and persuade her to end the conflict.

Straker comes down and strides up to the large viewing screen staring at the image of ed WINA STEVE S TR AKER So she likes men then?
CORBETT That's right she has the same urges as any female, its just she's lost her heart to a cabin boy and is overcompensating..
RIVERS We send ROSS with you as you start negotiations.
EXECUTIVE TOWNSEND leaves her desk and takes the center of the bridge in front of the main viewer
TOWNSEND S he's turn ed against VOLTAR and my ambassador has been taken hostage.
CAPITAN RIVERS Our PSYCHOLOGY wing has given the same evaluation .
CORBITT A nd it has resul ted in a regressive swing and the leather clad hell vixen we see before us .
TOWNSEND Y our mission will be to restore ZITON 7 TM production, vital for space travel .
STEVE STRAKER I'll do it, commander it'll make a change from pot washing in the mess room.
CORBETT Serves you right I would have sent a space letter to your mother and downgraded you .
MIKE RIVERS patrols the hexagonal bridge and leans on the hexagonal guardrail around the command chair .
>>Do I have your leave to go and see Jasmine in the gally for a hot towel rub and use JASMINE'S DUMBELLS TM .
CORBETT While your there tell LOGAN and ROSS to stand by we'll need their backup when we go down and negotiate on Grayson's planet.
RIVERS leaves his command chair and through the hexagonal guardrail and then through the double doors then along a charcoal grey tiled carpet , directed by by the soft resin panelling to his apartment .He collapses into a Lewis ascargo sofa .

MIKE RIVERS MONITOR can you give me my normal news feeds .

The synthesized ambidextrous voice of monitor can be heard from a speaker mounted above the door .

Yes Mike-I have a science and nature and home economics .

On an 8 ft high Led monitor, top anchor woman TULA REECE of the galactic federation .

Latest RESEARCH from the league of non-aligned worlds is an a new BERYLLIUM MAGRATHEA engine is set to replace the wolf 359 TM engine used in space patrol ships .

MIKE RIVERS Oh great our ship could be going in for a refit after this mission . I can go back to ROMULUS and try the VR suit, see if they smelt of lavinder .

He walks over to his intercom and keys in the gully where Jasmine is dispensing cosmetics .

MIKE RIVERS Jasmine can I come round to use the dumbbells ?

TULA REECE The wolf 359 engine has proved valuable and it increased the power of the galactic federation, but it's becoming more expensive with the loss of ZITON 7 TM ore from Grayson's planet .

MIKE RIVERS MONITOR get me the bridge .Townsend are you getting this .

TOWNSEND I will also inform the Volta confederacy .

MIKE RIVERS leaves and walks through the sliding door and across the landing then down the metal ladder to LOWER DECK walking along a charcoal gray tiled carpet using a chart on soft resin panels to get to Jasmine's apartment .

MIKE RIVERS COME TO USE

JASMINE'S DUMBELLS TM .
On an exercise mat in the corner of the room there are a set of dumbbells.Weighing 15 kilograms.
LOGAN Jasmine is absolutely right, her dumbbells are absolutely awesome.
MIKE RIVERS LOGAN and ROSS get kitted up for an away mission .
ROSS We are going down to Grayson's planet .
When the INTREPID TM reaches a stable orbit above GRAYSONS PLANET the officers assemble in a viewing gallery ,standing at a concave panoramic window on a lemon tiled carpet observing the planet from high orbit . Executive Townsend is last to arrive in a silver power shouldered business suit, with matching knee length skirt .
CORBETT is wearing green boots, green leggings ,and a green tunic .
CORBETT SWIVELS IN HIS COMMAND CHAIR .
TOWNSEND She will have the pick of the men down on Graysons planet now she is in power commander.
CAPITAN RIVERS Yes but according to this long report from the sociologist unit on B deck who have monitored all broadcasts since the revolution, that's the cause off the uprising.

CORBETT Explain yourself Capitan RIVERS
CAPITAN RIVERS These women answered adverts back on earth for wives and girlfriends for heroic athletic men.
TOWNSEND The space patrol brought them out here ?
MIKE RIVERS CORRECT-A-MUNDO .
STEVE STRAKER When we dropped them off last year they were greeted by hairy unwashed , balding old miners, who haven't seen a real woman in

light-years.
CORBETT Any suggestions from the science department
SCIENCE OFFICER BRUNSTAN There maybe a twentieth century idea that could help us, very popular at the time.
MIKE RIVERS The weirdest centaury in human history.
SCIENCE OFFICER BRUNSTAN PHEROMONE SPRAY with a musk perfume commander.
CORBETT SWIVELS IN HIS COMMAND CHAIR .
CORBETT STEVE STRAKER to go with Brunston and get fitted out with your new uniform , just like mine , and your deodorant for lovers and meet me on the shuttle bay.
STEVE STRAKER That's Jasmine's pharmacy on the lower decks.
MIKE RIVERS Yes STEVE you can go and use JASMINE'S DUMBELLS TM and tell LOGAN and ROSS to be ready to go to the Cargo Bay and alight a shuttle,they are joining the away team down to Grayson's planet..
CORBETT Take command of the INTREPID while I'm down on the planet RIVERS.
MIKE RIVERS Great, I can use JASMINE'S DUMBELLS TM while the Captains team are going to release the men of GRAYSONS PLANET and retrieve the ZITON 7 ore TM .
The escalator arrives and he walks in and presses the bottom button for the basement .
CORBETT Ha ha me pulled out of retirement as a senior member of the space Patrol . When this mission is completed I'll go on the publisity tour and be a hero one more time .
HALF HOUR LATER>>>>>>>>>>>> JUNIOR OFFICER STRAKER strides onto the cargo deck, in Lincoln Green costume with silver moon boots with officer

BRUNSTAN following behind him in an orange shell suit .They walk over to the metal deck past silos with streamlined shuttles to A1 shuttle where Commander Corbett comes out .

CORBETT We're ready to go ,I've scanned the surface for a suitable landing site and plotting a course to avoid detection .

but what's that terrible smell officer Brunston?

SCIENCE OFFICER BRUNSTAN It's this terrible musk our sociologists have developed from history records commander.

CORBETT By the GODS what are you wearing STRAKER ?

STRAKER Sociology department say cult of SUPER-CROSS-AND BLACKWELL captured love in the 21st century .

CORBETT I'll blame them when we have to abandon GRAYSONS PLANET to the militants.

MIKE RIVERS Haven't you seen the news captain, the WORF 359 TM reactor is being fazed out for a new BERYLLIUM METHUSELAH warp engine with a bottle of LAMBRINI .

JASMINE THAT'S A SPARKLING PERRY .

CORBETT Take a good care of the ship while I'm away ,and I want a full topological survey of the entire planet .

ROSS and LOGAN alight the shuttle straight into the streamlined cockpit take their seats at the very goodnavigation consoles with striker behind and Corbett in his officers chair , and start the pre-launch checks .

The Shuttle disengages from The Silo and Conveyors move it to the outer Hatch , the shuttle bay depressurises and the outer hatch opens into the black void of space .

Logan pilots the shuttlecraft out of the back of the ship and towards Grayson's planet and then and then plunges into the atmosphere .

A1 encounters turbulence in slipstreams of the upper stratesphere then swoops through a cloudbank .
STEVE STRAKER You've landed one of these before LOGAN ?
LOGAN Many times STRAKER .
ROSS In simulation training .
The shuttle craft swoops through the cloud bank and skims along the tree line of a large forest before landing in a forrest clearing.
STEVE STRAKER You breaked just in time my heart is where my liver should be .
CORBETT Good there's air on this planet .
ROSS Now don't forget your BARRY MANELOW ALBUM .
He opens the door of the shuttle and steps into a forrest clearing.
STEVE STRAKER I have the twentieth centaury disk right here .
LOGAN Vacuum packed since the day it was released on an unsuspecting audience all those years ago.
ROSS I'm starting to feel confident with a fully charged laser pistol between my…
CORBETT Belt up we are in enemy territory, don't you remember your training.
And step into the dense undergrowth through evenly Spaced Oaks Elms, Birch and and weeping willow trees In the direction of the Palace .

A few minutes later when they come out of the forrest .....

A gang of amazon women swing from the trees and our four hero's are captured and held with spears and bows and arrows.

The slender dark skinned woman with flame flamingo hair and Lincoln green leotard strides up to them.

PRINCESS ARIOLA You have entered into the sacred lair where men come only when they are invited, bow down before your princess Ariola .

They are forced to there knees in front of her.

STEVE STRAKER What are we going to do now commander.

CORBETT Do as they say and wait to be rescued.

Logan starts speaking into his risk communicator, before one of the Amazons pulls his arms by his sides and starts tying his arms with ropes made out of wild grasses from the forest .

ROSS activates the emergency button on his wrist communicator just as Corbett gets to his feet and addresses the women .

CORBETT So you are the wood nymphs of GRAYSONS PLANET

PRINCESS ARIOLA EDWINA has warned us the federation might send men to stop us .

CAROL CLEAVLAND We have fought hard for our freedom from your male autocracy .
The women cross there hearts with there fingers in unison .
CORBETT You didn't really think THE VOLTAR CONFEDERACY TM would just give away one of the few planets mining and processing ZITON 7 TM ore .
LOGAN Vital for stardrives .
CORBETT All your complaints against the federation can be considered if you give up now .
CAROL CLEAVLAND Finish tieing there hands and bring them to the place, EDWINA will want to questing them .
ARIOLA flips open her communicator .

In her palace EDWINA's wrist communicator beeps .
EDWINA Yes who is it I'm FLOGGING my page boys in the VIRTUAL REALITY SUIT in 30 mins , this better be important .
ARIOLA TO QUEEN VOLUPUA, [we have two pathetic men from the galactic federation, do you want them brought in.]
EDWINA [HA HA AS EXPECTED] SHE shouts for the amusement of her elite guards, surrounding her. .
EDWINA The VOLTAR CONFEDERACY

have sent the SPACE PATROL to bargain for peace ,though I hold all the cards for us women .
ARIOLA Not only are they space patrol, but the most celebrated ships captain in there fleet COMMANDER CORBETT .
EDWINA All the more sweet for when I give KING LOFTY my ultimatum .
She strides around the throne room of the palace past her court sitting at tables in front of roman columns , and across a red tiled carpet, once the administration room for VOLTAR MINING COOPERATION.
EDWINA bring them through the court yard and fling them into the dungeons .
She laughs for her assembled audience .
Back in the forest the wood nymphs start pocking the officers with there spears .
CORBETT what's so funny ARIOLA,
Stracker pulls out a spray from his utility belt and sprays his pheromone spray around the girls.

CAROL CLEAVLAND We have orders from QUEEN EDWINA to bring you to the palace to join the other prisoners
The 4 men are led along a dirt road between wild grasses and shrubberies towards a palace with a stone court yard with steps leading to a tall arched entrance and roman columns leading to a green dome glistening inthe mid-day sun .

STEVE STRAKER It works commander, the pheromone spray actually terns them on. I cant wait to try the 20th century music disk.
CORBETT I'm counting on you STRAKER you could be mankind's only hope .

When they reach the palace they are lead past stone lions lying in front of roman columns around a side path to the rear courtyard , a square surrounded by hills meadows

containing cages of big cats . The dungeon master comes at the sight of the wood nymphs, and unlocks the rear door and they are taken through a narrow passage illuminated by strip lights and along a hallway of prison cells .into a long row of cells .They are thrust violently into a cell where they cling to the bars.

COMMANDER CORBETT I represent the SPACE PATROL and demand you release us .

CAROL CLEAVLAND You can demand anything you want we are now independent of the galactic Federation and QUEEN EDWINA will deal with you in her own way .

CORBETT sits on the straw bed burying his head in his hands .

CORBETT This could be the worst day of my life, berried here with no hope off rescue .

ROSS As we were captured I managed to press the emergency call on my risk communicator before they were snatched from us .

LOGAN then if we haven't checked in the INTREPID TM will know we've been captured.

STRAKER There's still hope Commander, the crew of the INTREPID TM will phone KING LOFTY the wise ,

CORBETT His power still holds sway in this part of the galaxy, your right .

STEVE STRAKER walks up the bars of the cage and piers into the cell opposite .

STEVE STRAKER we are from the Space Patrol. What are you in for?

A dishevelled man in gray overalls looks up from the wooden bench below the barred window at the back of his cell.

GRAHAM I was sheriff of this town when the female revolution started and took my men prisoner. QUEEN EDWINA has turned my police station into an assembly line producing her RENTA-STUD VR GAME TM ,and attached dildo's to the game box taylored to every

female on the planet.
COMMANDER CORBETT What of the other cities on the other island.
GRAHAM QUEEN EDWINA has struck a non aggression treaty up with ASSUMPTA ISLAND ,and the men of MAGRATHEA have promised there is a man for each woman if they can get transport.
LOGAN Leaving loyal men of the VOLTAR CONFEDERACY TM mining and ancillary work.
ROSS the men of MAGRATHEA to take everything.
Out in the court yard , Princess Arora and the girls have surrounded the perimeter and are showing the dungeon master the space patrol communicators,
ARIOLA steps out the the circle of girls surrounding him and moves towards the lion cages flipping open her communicator.
ARIOLA QUEEN EDWINA, the space patrol are in the Dungeons, and are subdued for your pleasure, can I take the wood numfs to the royal kitchen .
QUEEN EDWINA Perfect ARIOLA , I'll want there things, and then post a guard on there shuttle back in the forrest .
ARORA yes YOUR HIGHNESS, and what of the space patrol .
QUEEN EDWINA I will have that ship up there for myself and get the men we need from other planets throughout the galaxy.

Up in geostationary orbit on the SPACE PATROL STARSHIP INTREPID TM
SCIENCE OFFICER BRUNSTON I have lost contact with the COMMANDER and his vital signs relayed through his wrist communicator have gone down.
CAPTAIN RIVERS
[Go to yellow alert]`he punches the INTERCOM TM on his command chair [All personnel are recalled to active duty. I want an evaluation and a plan of action.]
SCIENCE OFFICER BRUNSTON May I remind all officers , any attempt to rescue them will have to be cunning .
YEOMAN RAND[RED MINI DRESS] EDWINA has threatened to blow up the depot of ZITON 7 if she detects any military build up.
CAPTAIN RIVERS [LINCOLN GREEN COSTUME] Send a transcript of events to the VOLTAR CONFEDERACY TM , and advise them we may need help from the royal house to get supplies of ZYTON 7 TM back. Say EDWINA has taken CORBETT captive and will soon demand money and new contracts.
COMMUNICATIONS OFFICER YAMAMOTO Incoming message from the planet captain .
RIVERS swivels in his command chair.
CAPTAIN RIVERS [LINCOLN GREEN COSTUME]

Put it on the main viewer .
On the viewing screen GRAYSONS PLANET is replaced by QUEEN EDWINA in her throne room .
EDWINA we have captured your men .
CAPTAIN RIVERS But you can't win if the space patrol quarantines the planet .
EDWINA And if you attempt to land it will be war and your crew will be the first casualty .
CAPTAIN RIVERS You fiend .
EDWINA My pirates are in the asteroid field and will collect us from high orbit if I take the shuttle, and take us to CARTHIGIA .
VANUA We tried bringing the shuttle up by remote control and I think the autopilot is broken.
CAPTAIN RIVERS THE INTREPID controls all ships entering orbit, give my men back and we'll let you reach your space pirate allies.
The elevator doors open and COUNCILOR TOWNSEND strides from the lift in knee length boots and a blue mini dress and steps up to the main viewer .
COUNCILOR TOWNSEND I had to come to the bridge captain now we are on yellow alert. I feel responsible for sending the commander down unprepared. Show me a full map of the area.
In front of her,VANUA calls up the area with the palace in the centre, the forest to the south and the mining town on the west. The Shuttle is marked out in a forest clearing.
CAPTAIN RIVERS [LINCOLN GREEN COSTUME] I could send some boys down from high altitude and skydive over the forest plane , there to land in the town to the west of the palace .
STEPHANY TOWNSEND [Blue mini dress] turns from the viewing screen.
CAPTAIN RIVERS [LINCOLN GREEN COSTUME] If we take an escape pod and place two security men into a high orbit, then drop them by parachute into the atmosphere .
STEPHANY TOWNSEND [Blue mini dress] From

where they can glide down without detection.
SCIENCE OFFICER BRUNSTAN [sandy yellow tunic] My sociology team could come up with realistic costumes and the actors guild will make personalities that will blend in .
YEOMAN RAND [red mini dress] I'll go and break the news to the chief, we want two of his men for a rescue mission.

The three OFFICERS step up through a hexagonal guard rail and around the perimeter of the flight deck then through sliding doors and along a charcoal gray tiled carpet ,then stop next to crew quarters .RIVERS pops his head in the mess room and spies chief engineer CARTRIGHT languishing in a hammock below the grill to a maintenance tunnel .
RIVERS chief who are your best men for a dangerous mission .
STEPHANY TOWNSEND [BLUE MINI DRESS] Who can hang glide to the planet .

CARTRIGHT I can spare my best while where in orbit, and they are trained in paragliding, KEMP and FISHER .
CAPTAIN RIVERS Call them and bring them here now chief.
SCIENCE OFFICER BRUNSTAN [sandy yellow tunic]My evaluation is that an unpowered craft will not be detected at the palace. I've studied Voltar Security .
RIVERS Go back to your sociology and actors guilds and get your men ready, then join me at the ejection bays. I'll have two garbage disposal pods made ready for you.
When BRUNSAN walks out of the travel tube with two crewmen in cowboy costumes into the cargo bay they find the captain rigging disposal pods to eject into the atmosphere.
CAPTAIN RIVERS So these are your

yankee traders from far away are they, I've prepared two garbage disposal pods with oxygen and hang gliders for when they enter the atmosphere.
SCIENCE OFFICER BRUNSTAN Yes as you can see captain they have utility belts and authentic projectile weapons native to this primitive planet.
The captain nods at the two men saying [gentlemen step into the pods and gods speed to the pair of you, go directly to the village and avoid confrontation but get CORBETT back.]
COUNCILOR TOWNSEND And try to recover the BARRY MANELOW RECORD, it will become a dangerous anachronism if left with the natives.
The officers close the hatches and push the pods into the ejection tubes.
[fire pod ONE] [FIRE POD TWO]

The two pods fire out of the ejection tubes at great velocity towards GRAYSONS PLANET hitting the atmosphere and streaming through gaining heat as they quickly descend towards a high cloud bank.
The pods open and they eject into the atmosphere , and the gliders open out through the cloud bank and they start a slow glide down onto the surface of GRAYSONS PLANET.
KEMP I'll see you on the ground FISHER .
FISHER If these gliders don't set us down in that river west of the forest .
Out in the forest clearing the wood nymphs are guarding shuttle craft as the two intrepid gliders pass overhead.
FISHER They have the shuttle and are in control down there KEMP.
KEMP We'll land just beyond the tree's and then walk into town.
They glide down and land then and stow the gliders in the forest and start walking into town .
and as they reach a turn a young woman comes out of the

forest with a milk urn.
FISHER HOedIE MARM.
KEMP Don’t mind him he’s a SOCIOLOGIST, and doesn’t get out much .
The girl puts down her milk urn .
FISHER We are from the land overseas marm.
KEMP He means he’s from USUMPTA ISLAND ,
HINDI YA obviously, and I bet you don’t have a map and want me to escort you into town .
FISHER What she just say KEMP
KEMP It’s still a man's world over on ASSUMPTA .
HIDI COME THIS WAY .
They follow a tree lined path towards the town of CATSPAW, west of the palace.
KEMP Being traders from USUMPTA, we want to know about trade with the palace .
FISHER All you know of the revolution .
HEIDI I’m not a spy for QUEEN EDWINA, The only tavern in CATSPAW has been converted into BARRACKS for the mine workers and EDWINA'S militia patrol the streets .
KEMP Are all men under military guard?
HEIDI My dad has been taken to the palace and locked in the dungeons, so I’ll help you as much as I can.
Soon they enter the village of CATSPAW with a dirt roads and single story buildings .The main road is guarded by female militia, and they have to sneak around the back of CAMEO’S BAR.
HEIDI knocks on the door and they are let in.
HEIDI Thanks SVEN the streets are crawling with QUEEN EDWINA’S guards and I have these two from SPACE PATROL.
SVEN You can give me those guns boy’s and I’ll keep them safe. Come with me and I’ll give you mine work uniforms and you can join us.
They are taken through the kitchens and into the dry store

where they start changing amongst large sacs of dried vegetables.
FISHER We need men who will help us get our SPACE FORCE COMMANDER back.
SVEN If they have been taken captive they'll be in the palace .
FISHER Is there no way of rescuing them ?
SVEN I'm leading a revolt to take the station house back and stop production of the VR SUITS .
HEIDI That's what started the rebellion, women wanting more than homemaking.
FISHER Are there any weapons still in the armoury of the sheriff's building.?
SVEN I want to blow up the vibrator factory and take what weapons we can find.
OFFICER KEMP We'll help you, but if the raid is successful ,then I want a group of men to storm the palace and rescue CORBETT .
SVEN Alright then, you can join my men in the barracks till sundown.
They leave CAMEO'S , with KEMP and FISHER follow SVEN across the street to wooden barracks and join a group of men , who are being inspected by MADAM VLEDKA and two guards .
UNCLE SVEN These men have just come from central supplies madam VLEDCA
VLADCA Alright join the others inside the barracks
After being thoroughly searched by VLEDKA they step into the wooden barracks , and enter the dorm of mineworkers in orange boiler suits sitting at a long wooden table that dominates the single room, with bunk beds evenly spaced and lockers at the end leading to wash rooms .
KEMP If the commander is under threat then we have to break out now.
FISHER Especially if space raiders are going to attack

the INTREPID, we must warn the crew.
SVEN I used to know the mayor and VOLTAR ambassador before the revolution .We've been working on an escape .
He puts a wicker basket of bread on the wooden table and retrieves from the base of the basket the two handguns he'd confiscated at CAMEO'S , handing them out .
SVEN Fortunately with a armed patrols outside we haven't tried to escape before .
FISHER We have surprise on our side then ?
KEMP Then we'll take three of your best man, .and the two ground cars at the end of the high Street .
SVEN We'll only get one chance at this .
He walks around the barracks and asks for help from friends, then crosses to the far side and pull up three floorboards .
SVEN This passage leads outside under the foundations .
KEMP jumps through to the foundations of the building and crawls along till he reaches the outside where he sees two leather clad militia .
FISHER looks from the window as the guards pass and signals to the men waiting near the escape .KEMP readies his blaster and stuns them the two women as they pass, signalling for the men to come .
All six men take a perimeter path creeping around the side of the buildings till there close to cars .They charge from the cover of the buildings and run to the cars maned by two female militia who don't notice them till KEMP stuns them with his plasma gun .
FISHER and the men catch them as they fall to the ground and tie them up , dragging them into bushes .
SVEN gets behind the wheel and gun the engine ,as KEMP

climbs into the driver's seat of the other open topped car. The men clamber in and both cars speed out of
The two cars speed out of town and fisher uses wrist comm to call the ship .
FISHER Intrepid we have just escaped from the town of CATSPAW west of the palace, and have to report there may be space raiders in the area .

Up on the INTREPID ,in geostationary orbit above the planet, RIVERS is taking a break in a restaurant when VANUA calls him from the flight .
RIVERS SPACE RAIDERS? There's a name I have heard from a while, on my way, patch the call to me .
FISHER Rivers this is fisher we have just escaped the city of the town of CATSPAW which is under armed guard .
He leaves through sliding doors and up a flight of metal steps from the lower deck
and along a charcoal grey tiled carpeted main gantry .
On the dirt road out of CATSPAW a tree to the side of his car is rocked by an explosion and FISHER looks back to find a ground car gaining on them, firing projectile missiles.
FISHER There's a fast car gaining on us, if they catch us it's the end of our rescue mission.

RIVERS Yes and I have to recall all key personnel you'll get one shot to rescue the captain, we'll have to leave orbit before we're attacked by space raiders .
Rivers walks through a sliding door to the flight deck and past monitoring stations, then through a hexagonal guardrail to the command chair we're executive Townsend is sitting to his left and the area of CATSPAW is on the main screen.
has the area on the main screen .
RIVERS We'll launch a pursuit ship .
He presses an INTERCOM on his command chair .
RIVERS Tom and Verney alight shuttle BETA and save our men on the ground who have been fired on by an enemy ground car .
VANUA SPACE RAIDERS? I thought they were beaten .
RIVERS They've still using their advanced cloning techniques, and with their cybernetic and bionic implants they come back to attack human colonies .
TOWNSEND VANUA get a shuttlecraft ready.

From the main screen they see Tom and Verne alight shuttlecraft beta, and Vanya starts pre-flight checks and moves the shuttle from its docking silo on Conveyors to the outer Hatch and depressurises the shuttle bay.
The rear doors slide away to reveal the black void of space and BETA flies out and around the hull of INTREPID and towards Grayson's planet .
RIVERS Switch to forward view VANUA.
They see shuttlecraft BETA enter the atmosphere of Grayson's planet and swoop through a cloud bank homing in on the signal from office of FISHER .
Back on the dirt road the two cars are hit by flying debris

of near misses from a bazooka mounted on a pursuit vehicle .KEMP'S car takes a hit on the side and screeches into a ditch near the trees, his two allies jumping out and scramble into the trees .
The pursuit vehicle from CATSPAW catches up with him with one of the Militia in the back aiming a plasma rifle mounted on the back cage.
Three female guards climb out out of the vehicle aiming plasma guns at Kemp just as shuttlecraft BETA swoops out the cloud bank and hovers above .
TOM fires are torpedo in front of the car .
VERNE put down your guns and surrender .
Two orange bullet boiler suited miners come out of the trees and help Kemp to disable the women .
RIVERS There's a landing spot a few kilometres away ,land and take those women hostage .
KEMP We don't want EDWINA and her melita to know we intend to rescue CORBETT , ROSS, LOGAN and STRAKERand take back the planet for the Voltaire confederacy . Escort the women over to that clearing and then come back,
The women are led through the trees by Miners just as BETA lands in a clearing and the women are locked into the passenger cambin by Tom and Verney . The two miners walk back through the trees and clamber into the melita all terrain vehicle , one mounting the plasma riffle and the car speeds away .
KEMP We'll rendezvous with you near the palace, and TOM be ready for an attack run .
While KEMP, FISHER, SVEN, and some deputies from CATSPAW are driving to rescue their comrades from SPACE PATROL flag ship INTREPID TM ,back in the VALTA Palace STRAKER is being led by female police

officers through an archway past stone cladding along a maroon tiled carpet to the science Wing , then led over to a large table and strapped on.
A head set is lowered from a canopy two feet above .
EDWINA Take over STELLA, I want the shuttle release codes. I'm going down into the court yard to interigate the other officers before we capture there ship.
STELLA It's not a large ship my queen we could probably take it with surprise on our side.
EDWINA Make sure of it then pair him up with our CYNTHIA here.
EDWINA walks from the throne room past stone cladding and through an archway down the twin-pile axminster maroon carpet then down metal steps to the prison cells as EGOR is lining up INTREPID officers
CORBETT and his men walk out of the cell bars .
EDWINA I want all the release codes for the INTREPID before I take it to CARTHAGE-IA, where men are real men not hairy unwashed miners who haven't seen a woman in light years .
CORBETT I'll never give you my ship you can torcher me to your heart's content .
LOGAN Yeah with a chicken Kiev and a side salad.
STELLA Pick up those shovels and move out .
Three policewoman women shove them along the concrete floor and up metal steps through roman columns into the courtyard at the back of the palace .
EDWINA, STELLA follow EGON who walks through to the edge of the courtyard surrounded by a grass verge and hills and starts opening the lion cages .
EDWINA Either give me all the release codes of clean out these lion cages .

STELLA Wouldn't it be easier to use the mind probe like we used on their junior officer .
EDWINA The MIND-PROBE TM can tell me everything I need to know , I'm just trying to pump the commander for more power .
She walks over the large paving slabs of the court yard up to a cage where CORBETT has a shovel and is walking in with a bucket .
EDWINA Last chance commander .
CORBETT You do realize we've sent a message to king LOFTY of VOLTA who I hear from ambassador JARVIS over there has plans for Grayson's planet .
JARVIS i'd sent a science team to the ancient city beyond the forrest when you raided the armory, disabled the mine and forced us to surrender .
EDWINA And you could have had a share on our new fortune once the Space Raiders Are In control, but you chose to spend the rest of your life in prison .
CORBETT YOU WON'T GET AWAY WITH THIS .

Up on the INTREPID TM Rivers is in Jasmine's health studio using JASMINES DUMBELLS TM while watching a documentary about a newly discovered ancient

city on Grayson's planet .
The ancient civilization had a power and may have conquered the galaxy, scientists where just trying to decipher a gate that looks like one of our dimension gates .
JASMINE With a cyclotron and particle accelerator .
RAND[RED MINI DRESS] Any news from the away team ,
RIVERS I've got six officers down there and SPACE RAIDERS might try and take over the ship .
RAND[RED MINI DRESS] `And help EDWINA fulfill her fantasies .
COMMUNICATIONS OFFICER
YAMAMOTO There is a subspace message from the palace of Voltaire on its way to this quadrant .
RIVERS I'm coming back to the bridge.
He leaves Jasmine's apartment and up the metal steps and along the lime green tiled carpet using a chart on the soft resin paneling to guide him through the ship and through the sliding doors onto the flight deck .He walks past monitoring stations and leans on the hexagonal guard rail .
RIVERS have monitor play the message YAMAMOTO .
YAMAMOTO Just to say the VOLTA SPACE PALACE will be arriving intend to take charge on Grayson's planet it seems it's going to be the new center of the galactic federation .
RIVERS look forward to their arrival .
YAMAMOTO King lofty and his party will be arriving on the endeavour, royal court and we'll be doing a topological survey of the planet from geostationary orbit .
CAPTAIN RIVERS In other words, I've got to rescue the captain and neutralize the militants of Grayson's

planet .
TOWNSEND Maybe we can infiltrate the mine workers and get them to start a popular uprising .
VANUA Not well they've got CORBETT hostage.

From the perimeter of GRAYSONS SYSTEM TM, twin 50 ft dimension arks rotate 40 degrees creating a rippling mercury pole at the centre and VOLTA SPACE PALACE ejects cruises on impulse power to wards Grayson's planet .In the throne room king lofty the wise is attended by WILMA DEERING deering and special advisor PICKERING .
KING LOFTY So now I've assured the DRACONIAN empire that CANDEREL TM galactic federation is not using incubators or start cloning hybrids .
COLONEL PICKERING To increase the human numbers ?
WILMA DEARING It only remains for us to find a new home for the mother of parliaments .
KING LOFTY That's right WILMA, CANDEREL served us for many generations since the time of my great great grandmother president VANESSA

BELLAMY . But I thought it would be great to have to bring all the ambassadors here on VOLTA SPACE YACHT .

COLONEL PICKERING Including TANK ZOR from ARCADIA .

WILMA DEARING SONDAR of the draconian empire with his battalion .

From stage left walk a group of men in blood red uniform, silver moon boots,white shoulder pads , and flowing white floor length capes .COMMANDER MAXELL My adjudicators are ready to help secure GRAYSONS PLANET, KING LOFTY .

WILMA DEARING You've arrived in the nick of time COMMANDER , I was about to give the whole royal court an update on the conflicts as we reach geostationary orbit above GRAYSON'S PLANET .

From tannoy speaker above the door monitor translates for the ambassador of the League of NON-ALLIED WORLDS sitting in his floatation tank breathing from methane .

AMBASSADOR RELL The LEAGUE are satisfied that the humans are not expanding too quickly ..

SONDAR And SONDAR of the DRACONIANS realise the M-Class planets are at a premium .

KING LOFTY That is why I thought the

best solution would be to make the new parliament for all the known worlds here on Grayson's planet .
COLONEL PICKERING I believe this in local disturbances at the moment hopefully they'll be cleared up by the time we reach geostationary orbit .
KING LOFTY And if i can finish my investigation of the ancient city, my scientists say they might return you back to your time .
WILMA DEARING Yes i've enjoyed our time in the far future but i'm from old earth, and have a husband waiting for me .
COLONEL PICKERING And my friends time experiments, PROFESSOR HIGGINS, led us to WILMA here, and a freak mishap brought us to our future .
COMMANDER MAXELL Once we achieve stable orbit , My adjudicators will be ready to take Grayson's Planet by forse if necessary.
COLONEL PICKERING My size-molegist will do topological analysis and find the best location for the perspex elevator and a fixed docking station .
KING LOFTY Then we can all go down onto the planet and explore our new Paradise. Call INTREPID and tell them we're taking Grayson's planet, but we want our female revolution the mind workers solved by the time we arrive.
COMMANDER MAXELL Ambassadors if you'd like to follow me through the viewing gallery we're about to reach orbit .
The ambassadors get off their sun lounges ,and walk over the lemon tiled carpet past stone cladding and up the main gantry, then enter a viewing gallery dominated by a concave screen showing a panoramic view of a lush paradise christened Grayson's planet ,as VOLTA SPACE

YACHT enters a stable orbit above the northern continent .
KING LOFTY Where's that size-mology report and topological survey .

COMMANDER MAXELL We're all staying until the new parliament building is built on the southern continent the landmass to the west .

COLONEL PICKERING Yeah when I was building the stately home my ancestors insisted on good foundations .
KING LOFTY Good on them, no it's going to be made out of prefabs .
WILMA DEARING We'll just level the top soil with paving slabs and assemble the prefabs , which are made on KALDOR.
KING LOFTY The industrial heart of the galactic federation .
COMMANDER MAXELL Yes ambassadors I'm the chief of police there me and my adjudicators , SAY HELLO BOYS .
ADJUDICATORS in sound booth control room in full blood red uniform with silver moon boots, white shoulder pads and floor length white cape .
ADJUDICATOR MENZIES HELLO
KING LOFTY MY LADS.
Followed by ARCADIANS in the costume with ceremonial sword, and viking helmet, with a sash across the chest plate .
COLONEL PICKERING So the parliament building is going to be assembled on site .
WILMA DEARING oh yeah the utilities plug straight in so .
KING LOFTY Hardly any need for for groundwork .
TANK ZOR we're staying right here to make sure your new empire .
KING LOFTY Thanks TANK, under my rule .
COMMANDER MAXELL Be fair EGOR, your great grandmother VANESSA BELLAMY did her best in very

trying times .
COLONEL PICKERING Yes let's not forget that you are allies with the DRACONIAN , and aunty Bellamy
SONDAR I'll always remember when my father the DRACONIAN EMPEROR made his final altimatum to the high council and Vanessa Bellamy just turned in her chair and said the Galaxy is big enough for the reptiles and the humanities.
WILMA DEARING We're very very grateful to the draconian empire for putting up with us humans wherever we venturing into space .
META Yeah and the League of a NON-ALIGNED WORLDS were satisfied when she swiveled in her command chair and said she was willing to help .
KING LOFTY That's my PRESIDENT VANESSA BELLAMY, granny to me and CHISTOPHER .
ADJUDICATOR ALGIE brings a topological survey for the continents on an Android 3000 viewing slab and LOFTY, PICKERING ,and MAXWELL . select a site for the new parliament building.
As the ambassadors stair at a green and fertile planet below KING LOFTY walks from the viewing gallery to a wall mounted INTERCOM TM and presses for the flight deck for the bridge .
LOFTY Adjudicator MARSHALL here are the coordinates, allow for some climatic changes oh but ambassadors we can control the weather and the climate from up here on VOLTA SPACE PALACE
All the AMBASSADORS clap and LOFTY and PICKERING take a bow .
KING LOFTY I've just sent you the coordinates so engage the GREAT PERSVEX ELEVATOR TM to

the area marked on the map , and test our carrage is safe, then we go down to claim GRAYSON'S PLANET TM. .
COLONEL PICKERING Or what the GALACTIC FEDERATION TM will call NEW CANDEREL .
COMMANDER MAXELL Great choice to replace the old CANDEREL TM which has been the hub for thousands of years .

ELSEWHERE>.....97.09 MILES DOWN ON THE SURFACE OF NEW CANDEREL WHILE KEMP and FISHER race to the palace with men from the town of CATSPAW, Straker is lead into the court yard and assembles with the other girls of EDWINA's elite .
CYNTHIA You can stay with me forever .
STELLA Now you've given us the release codes you can co-pilot with me on the shuttle.
EDWINA It was fun watching your commander cower as he cleaned out the lions cage with the other men wasn't it STELLA. Load up the ground car with my jewels as a present for the king of CARTHIGIA

STRAKER helps the girls pack crates onto the back of a wagon when he notices a small box different from the others with a label
To EDWINA. Open and use wisely for immediate effect .
STRAKER A gift from KING LOFTY, that she never even noticed,
He opens the box and feels an invigorating feeling , puts it in his pocket and then joins STELLA AND CYNTHIA behind the chariot.
She steps across the paving slabs and up a step ladder into her chariot ,then grab the reins and move the horses out of the yard, women of her elite guard fall in behind her .
EDWINA We march on to our triumph girls, lets take the ship and fly, to the planet CARTHIGIA .
On the dirt road towards the forest .STELLA CARTHIGIA, the fabled planet of the black gigalo's .
In a clearing in the forest, female officers of GRAYSON'S PLANET TM , FIONA PLUMPTON and MARLAINER DETRICH are enjoying a meal [MUSHROOM SOUP and CRUSTY BREAD salted LURPAK butter]and planing a retirement on pleasure planet of CARTHIGIA .
The convoy has rendezvoused with other women on the way, drinking BUCKS FIZZ TM
STELLA You can realy tast the oranges in BUCKS FIZZ TM
FIONA PLUMPTON Soup was tasty , LURPAK by ARDMAN animation INC.
MARLAINER DETRICH The ones who made WALLACE and GROMIT?
EDWINA PROBABLY, Well done for guarding the shuttle ,you'll get fine concubines from CARTHIGIA .
PRINCESS ARIOLA You here that girls we shall be free from those dirty mine workers.
STEVE STRAKER Those dirty mine workers have made you all wealthy and they are to be consigned to barracks and hard labour, I'm ashamed to be

with you.
CYNTHIA Your with me know STELLA you promised.
STRAKER has concealed a METABELIS BLUE CRYSTAL TM in his Navy navy blue boiler suit taken in at the waist with his sleeves rolled up and he's helping officer just before the chariot reaches the shuttlecraft.

The METABELIS BLUE CRYSTAL TM has enthused Straker with renewed power and energy, and as the wood numffs clamber into the back of the truck, he makes a break for the tree's.
STEVE STRAKER Sorry cynthia ,but I'm still an officer with SPACE PATROL TM .
He runs into the forrest with the female officers in hot pursuit firing PLASMA RIFFLES. The tree's and his renewed strength gives him speed racing towards CANDEREL PALACE TM . .
EDWINA Stop him we need him to take the shuttle.
CYNTHIA I'd have offered him everything and a new life with us.
STELLA I can still pilot the shuttle QUEEN EDWINA.
EDWINA Onward to glory my women we take the SPACE PATROL by forse.
The convoy carries on towards the space shuttleI'm right through the forest gets to a clearing with the shuttlecraft manned by Fiona Plumpton and Marlena Dietrich .

Straker has reached CANDEREL PALACE TM . Using the tree line to kill in seal himself and then runs past the stone steps the gravel path to Stone steps and the Roman columns around the side using this the steep hills so he gets to the paving slabs of the square of the oblong courtyard at the back of the palace .
EGOR has locked up , and has put the shutters down cealing off the court yard and is in his guard house when the true cars driven by kempen Fisher from the western town of cats poor drive over the hills and park in front of him with one of the miners wearing a navy blue boiler suit taking in the waist with his sleeves rolled up fires a plasma rifle directly at the back door which explodes in the shower

of Sparks .
EGOR I'll feed you to the lions this time STRAKER, there's no escape.
Camping fish at caloundra of the cars and follow striker down the concrete steps and along to the cells and stop in front of the prisoners .
KEMP we're an Officers the space Patrol come to get you out .
CORBETT thank God you arrived off his camp I was beginning to give up hope of Rescue .
EGOR That belongs with the Jewels of the treasures of grayson's planet and if you survive , I'll have you down the mines with the other men.
STRAKER Yes and you'll have to take it off me.
The Dungion master opens two lions cages and gets out a large wip and two of the big ferocious cats come out.
STRAKER I don't know if this works on pussy cats.
STRAKER retrives the METABELIS BLUE CRYSTAL TM . from his navy blue boiler suit taken in at the waste with his sleeves rolled up .
EGOR GOODBYE STRAKER, these cats will rip you to shreds .
ROSS STONE THE CROWS
LOGAN SPAM AND BRANSTON TM PICKLE .
FISHER YOUR UNDER ARREST .
LOGAN Free the men.
EGOR opens up the back entrance to the palace and they go down into the dungions and free the men.
STEVE STRAKER Where is your communications office , I have to warn the SF INTREPID, of the invasion of the amazon women.
JARVIS I know VOLTA palace like the back of my hand STRAKER, follow me .
COMMANDER CORBETT Well done Straker, the BARRY MANELOW TM record and the pheromone

spray worked on the women did it.
ed STRAKER It would have but EDWINA put theMIND-PROBE TM .
on me and I defected and fell into rebel officer STELLA'S arms, gave away the space shuttle release codes .
COMMANDER CORBETT There gonna take my ship, you numskull .
EGOR is arrested and locked in a cell , and FISHER throws away the key in a pile of cat doo .
JARVIS I'll inform your space ship and hopefully you will have a security team ready when the shuttle flys into its docking silo , with REACTOLITE TINTED WINDOWS TM .
The chariot containing EDWINA and STELLA arrives in the forest with the INTREPID SHUTTLE and the female officers clamber into the shuttle .EDWINA takes her command chair
EDWINA Start you please fright checks .
STELLA takes a pilot seat with RAVEN next to her ,the shuttle lifts off from the clearing and accelerates through a cloud bank into the stratosphere reaching high orbit.
RAVEN plots a intercept course for the INTREPID .

Up on the INTREPID TM
COMMUNICATIONS OFFICER YAMAMOTO A

shuttle is transmitting it standard prefix code and requesting docking facilities.
CAPTAIN RIVERS Ok bring the ship in .
He punches a COMM PORT on his command chair .
RIVERS Security detail to the shuttle bay CARTRIGHT join me in the shuttle bay, TOWNSEND [BLUE MINI DRESS] take command and advice VOLTA SPACE PALACE .
RIVERS walks through the hexagonal guardrail and through the sliding doors then down a LIME GREEN tiled carpet, joining CARTRIGHT with five security guards .
CARTRIGHT I had to drag him away from JASMINE'S DUMBELLS TM .
STEVENSON Yes we're ready for anything .
The shuttle glides in and moves on conveyors to its docking silo,the REACTOLITE TINTED WINDOWS TM compensating flood lamps mounted on upper gantry , where the whole crew is waiting to take the women into custody. EDWINA and her rebel officers storms onto the bay .
EDWINA Lets take the ship and onward to CARTHIGIA.
CAPTAIN RIVERS Put down your weapons girls, your all under arrest.
TOWNSEND[BLUE MINI DRESS] And put some clothes on .
EDWINA You can't arrest all of us, I have your commander and I want safe passage back to earth.
STELLA Year we don't want to stay on this planet with the miners ,we where promised a good time.
CYNTHIA Hansom men they said at the travel agents before we came here and what did we find.
CAPTAIN RIVERS Ladies please, adjudicators for GALACTIC FEDERATION have just entered orbit under the command of COMMANDER MAXELL .
TOWNSEND Stand down from red alert

BRUNSTAN.
RIVERS gets a call from the bridge [KING LOFTY's palace has entered our system and he wants to talk to the women]
CAPTAIN RIVERS Send him through on the intercom here.
KING LOFTY So you've rebelled against me have you , and threatened my ZYTON 7 ore.
EDWINA Oh KING LOFTY me and the wood nimphs are very unhappy.
KING LOFTY really, that biological clock will be the death of all of us and you lost faith in me after all the happy times we have had together. I gave you all you needed. Taking SPACE PATROL prisoners is a very serious offence.
WILMA DEARING I'll join you down on the planet .
COMMANDER MAXELL Where I here one of the SPACE PATROL officers has found your secret.
LOFTY Oh the METEBELIS BLUE CRYSTALS TM .
CAPTAIN RIVERS Take these women to our infirmary and hold them till KING LOFTY arrives.
TOWNSEND[BLUE MINI DRESS] oh yeah arrest the revolutionists .
RIVERS , BRUNSTAN and the crew of the INTREPID TM take it's women captives . and hold them on the INTREPID .

67 miles above the north pole in geostationary orbit, VOLTA SPACE PALACE TM ..... king LOFTY followed by adjudicators under [BLOOD RED UNIFORM ,SILVER MOON BOOTS, WHITE SHOULDER PADS WHITE FLOOR LENGTH

CAPE]commanded of MAXEL step into a PERSPEX ELEVATOR TM with ambassadors of the GALACTIC FEDERATION TM .
The perspex elevator descends at 60mph through stratosphere of GRAYSONS PLANET through a cloud bank, ambassadors admiring the scenery from high altitude .
A combined magnetic and hydraulic braking system slows the PERSPEX ELEVATOR TM down to five mile an hour for the last three miles and a spring loaded suspension for the base , the ambassadors emerge onto the jungle paradise which is new CANDEREL TM formerly Grayson's planet.
KING LOFTY Jarvis ? Can you bring all the fleet of all terrain vehicles from the garage to the south of CATSPAW ?
SONDAR We've got a journey through the landscape gardens and past the palm trees to the ancient city.
KING LOFTY Where my scientists would have completed the investigation into what appears to be an ancient interstellar vortex as a dimension gate, thank you communications officer YAMAMOTO .
When the vehicals arrive ambassadors alight and they are driven by KALDOR POLICE through the landscape garden and along the palm trees to the ancient city .
COLONEL PICKERING The city has pyramids and worn statues .
WILMA DEARING Must have been a thriving civilization .
They drive into the centre, dominated by two arcs 25m high standing vertical with 50 metre high pyramids on four corners .
They disembark and gather near a concrete platform where

SCIENCE OFFICER BRUNSTAN has prepared a POWERPOINT TM presentation .
SCIENCE OFFICER BRUNSTAN I've managed to decipher some hieroglyphs, and if I can put a new particle accelerator and cyclotron in the basement I could fire up and see if she's capable of a gateway .
WILMA DEARING Similar to our dimension gates?
KING LOFTY Okay in the meantime Yamamoto send a message to KALDOR and tell them to bring the prefabricated homes and the parliament building from GLOBAL CHEMICALS assembly plantin the blind heart desert of KALDOR TM. .
COMMANDER MAXELL Many years ago global chemicals were owned by earth and then PETER ELGIN sold the company to VOLTA and KALDOR and forbid knowledge of his origins .
SONDAR Just like the other first place for you humans , that was in our territory before you asked to investigate, known MAGRATHIA .
COMMANDER MAXELL I was the captain of the SEARCHER, who found MAGRATHIA, deep within DRACONIAN sector of space .
ELISABETH CHERRY Before the great exodus across the galaxy from MAGRATHIA in the arc ships where we found KALDOR .
COLONEL PICKERING Later on discovered the lost arK ship crash landers on earth over 6,7000 years ago .
COMMANDER MAXELL Yeah we only discovered 2,000 years ago during the reign of PRESIDENT VANESSA BELLAMY .
KING LOFTY My great great great

grandmother .
COLONEL PICKERING So well so what are the flat packs are coming from KALDOR, I'll have as many as I can in the town of CATSPAW south of the palace and the rest within the grounds .
ELISABETH CHERRY Including the ambassadors?
SONDAR And who's going to pay for this vast expense you're Highness . KING LOFTY Well I'd like to believe that the METABELLIS BLUE CRYSTAL has finally convinced the men to believe in me .
ALL HAIL KING LOFTY THE WISE >

One week later the whole of the royal court and ancillary staff plus citizens of the new CANDEREL assemble in front of two vertical arks with the four pyrimids standing 25 meters. SCIENCE OFFICER BRUNSTAN turns to COLONEL PICKERING [READY]
He switches on the particle acceleration and the first of the arks rotates 40 degrees clockwise and is enthused with power, arcs of electricity discharge into the mercuary pool at there centre from the point of the pyramids and a **synthesized ambidextrous voice of the guardians of forever** can be heared from in built speakers to the side .
Greetings earthlings
Guardians of forever have been waiting for you to reactivate our VORTEX .
KING LOFTY It must be based on our DIMENSION ARKS .
Our culture has been around longer than your cavemen first came down from the trees,

and we have access to the whole universe of time and space,
from here you can see any moment in time and space .
KING LOFTY VOLTAIRE confederacy and GALACTIC FEDERATION appreciates the GUARDIANS of FOREVER .
SONDAR And we'd like you to send back one of our senior advisors COLONEL PICKERING and WILMA DEARING .
From the assembled people of GRAYSON'S PLANET an elderly man, and a strikingly attractive female emerge from the crowd .
PICKERING That's right I'm waiting to get back to Guildford and London of 1965 the rock and roll years .
WILMA DEARING Enjoying London's heat wave I was feeling fine, about to be liberated by the swinging 60s , though how much they swing I'm still going to find out . I come from 1553 when I left my husband just before HIGGINS and PICKERING advised me that Queen Mary's supporters wanted me dead .
PICKERING Yes, and then BRINKLEY the groundsman knocked me while serving a DRY SHERRY from a crystal decanter and the travel belts whisked us to the same location in the far future .
WILMA DEARING Which is 10 years ago .
KING LOFTY GUARDIANS of FOREVER can you send them to London England .
THE PLANET EARTH 1965 ?
IF YOU INPUT THE EXACT COORDINATES .
BRUNSTAN Into this touch screen console that I've created .
LET THEM APROACH
